

§ 359.52

§ 359.52 What happens if any person purchases book-entry Series I savings bonds in excess of the maximum amount?

We reserve the right to take any action we deem necessary to adjust the excess, including the right to remove the excess bonds from your New Treasury Direct account and refund the payment price to your bank account of record using the ACH method of payment.

§ 359.53 Are taxpayer identification numbers (TINs) required for registration of book-entry Series I savings bonds?

The TIN of each person named in the registration is required to purchase a book-entry bond.

§ 359.54 When is a book-entry Series I savings bonds validly issued?

A book-entry bond is validly issued when it is posted to your New Treasury Direct account.

§ 359.55 How are redemption values calculated for book-entry Series I savings bonds?

We base current redemption values (CRV) for book-entry Series I savings bonds on the definitive savings bonds CRV. To calculate the book-entry values, we use the CRV for the \$100 denomination Series I savings bonds and calculate a CRV prorated to the book-entry par investment amount for the corresponding issue and redemption dates. Calculated book-entry CRV will be rounded to the nearest one cent.⁵ The formula is as follows (Examples of the calculation are given in Appendix A to part 359.):

$$[\text{Book-entry par investment} \div 100] \times [\text{CRV value for \$100 bond}]$$

§ 359.56 How can I find out what my book-entry Series I savings bonds are worth?

(a) *Redemption values.* You may access redemption values for your book-entry bonds through your New Treasury Direct account.

⁵Example: Calculated value of \$25.044 rounds to \$25.04; calculated value of \$25.045 rounds to \$25.05.

31 CFR Ch. II (7–1–04 Edition)

(b) *Redemption penalty.* Redemption values shown in your New Treasury Direct account reflect the three-month interest penalty applied to bonds redeemed prior to five years from the date of issue.

§ 359.65 [Reserved]

§ 359.66 Is the Education Savings Bonds Program available for Series I savings bonds?

You may be able to exclude from income for Federal income tax purposes all or part of the interest received on the redemption of qualified bonds during the year. To qualify for the program, you or the co-owner (in the case of definitive savings bonds) must have paid qualified higher education expenses during the same year. You also must have satisfied certain other conditions. This exclusion is known as the Education Savings Bonds Program. Information about the program can be found in Internal Revenue Service Publications. (For example, see Publication 17, “Your Federal Income Tax,” Publication 550, “Investment Income and Expenses,” and Publication 970, “Tax Benefits of Higher Education.”)

§ 359.67 Does Public Debt prohibit the issuance of Series I savings bonds in a chain letter scheme?

We do not permit bonds to be issued in a chain letter or pyramid scheme. We authorize an issuing agent to refuse to issue a bond or accept a purchase order if there is reason to believe that a purchase is connected with a chain letter. The agent’s decision is final.

§ 359.68 May Public Debt issue Series I savings bonds only in book-entry form?

We reserve the right to issue bonds only in book-entry form.

§ 359.69 Does Public Debt make any reservations as to issue of Series I savings bonds?

issued, any bonds in any case or class of cases, if we deem the action to be in the public interest. Our action in any such respect is final.

We may waive or modify any provision of this part in any particular case or class of cases for the convenience of the United States or in order to relieve any person or persons of unnecessary hardship:

- (a) If such action would not be inconsistent with law or equity;

APPENDIX A TO PART 359—REDEMPTION VALUE CALCULATIONS

1. What are some general tax considerations?

Interest on savings bonds is subject to taxes imposed under the Internal Revenue Code of 1986, as amended. The bonds are exempt from taxation by any State or political

subdivision of a State, except for estate or inheritance taxes. (See 31 U.S.C. 3124.)

2. What is an example of a book-entry Series I savings bonds redemption value calculation?

Assume a New Treasury Direct par investment amount in a book-entry Series I savings bonds of \$34.59, with an issue date of May, 2001, and a redemption date of December, 2001. The published CRV for a definitive \$100 Series I savings bonds issued May, 2001 and redeemed December, 2001 = \$101.96.

Calculation:

$$[(\text{Book-entry par investment}) \div (100)] \times \text{CRV value for \$100 bond}$$

$$[(\$34.59 \div 100)] \times 101.96$$

$$[0.3459] \times 101.96$$
